FDIC,

I have an account with Evolve through Yotta. My comment is to pay out my money owed to me. Since Yotta used your FDIC logo and claimed 100% security. Evolve Bank has lied to me over the phone and said they don't have my money it's with Synapse even though in yotta app I have an Evolve account and routing number. This is my savings account that has been frozen so money is crucial for my life and well being.
