Subject: [EXTERNAL MESSAGE] FDIC Fintech Ledgers
Date: Sunday, September 22, 2024 2:28:33 AM

Please make this a thing. It's important to hold fintech companies accountable. I'm currently suffering because of Synapse and it's not right to scam its customers like this! This is hundreds of millions of customer's dollars that are unprotected, and that is very unfair to the customer. There needs to be more safety and protection for customers, and companies cannot take advantage of them!
